Collicutt Makes Clean Sweep at Calgary Show

G. K. Allonby Wins Many Prizes With His Shropshire Sheep

Frank Collicutt of Crossfield has again swept the boards with his Hereford cattle at the Calgary Show this week. Following are the names of Mr. Collicutt's cattle and how they finished in the show ring:

Heifer born in 1930, before July 1—1, W. S. Miss Domino 53.
Heifer born in 1930, after June 30—1, W. S. Miss Domino 78.
Heifer born in 1931—1, W. S. Miss Domino 97.

Champion heifer — Champion, W. S. Miss Domino 53; reserve, W. S. Miss Domino 78.

Bull born in 1930 before July 1—1, W. S. Domino 54.

Senior bull calf—1, W. S. Domino 79.

Junior bull calf—1, Willow Domino 7th.

Breeders herd—1, Frank Collicutt.

G. K. Allonby has also been very successful with his Shropshire sheep and in spite of heavy competition won many second and third prizes.

O. E. Coffin was fourth with group of 15 lambs, weighing 80-100 lbs.

To Show at Toronto

Mr. Collicutt will again exhibit his prize winning Herefords at the Royal Winter Fair, Toronto, Nov. 18-26.

338 HEAD OF CATTLE FOR OLD COUNTRY

The Dougan Ranch shipped 12 carloads of cattle, 338 head, to Montreal on Monday. These cattle will be finished in Montreal and then shipped to the Old Country.

LARGE CROWD ENJOYS SOCIAL EVENING

The social held under the auspices of the Vestry of the Anglican Church on Friday, last, was very well attended. Good crowds being present at both the whist drive and the dance. The winners of the prizes at cards were: Ladies' first, Mrs. M. Thomas; second, Mrs. F. Mossop; consolation, Mrs. H. Schofield; gent's first, G. M. Menzies; second, T. Borbridge; consolation, Geo. Murdoch.

The hall was very tastefully decorated giving it a hallow'en effect. The Borbridge orchestra played excellent music for the dance.

The ton of coal donated to the church by Mr. Lewis was raffled off and was won by Mrs. McClelland with ticket number 40. Mrs. McClelland gave the coal back to the church.

Annual Meeting of Crossfield Curling Club

The annual meeting of the Crossfield Curling Club will be held in the Oliver Cafe on Monday, Nov. 9, at 8.30 o'clock.

A full attendance is requested as several items are to be discussed and decisions made.

TURKEY SHOOT SAT., NOVEMBER 7

The Crossfield Baseball Club are holding a Turkey Shoot on Sat. November 7th, commencing at 1 p. m. Trap and 22 rifle shooting. All large milk-fed turkeys. A good chance to get your turkey for Armistice dinner.

THE MARKETS

Crossfield, Nov. 5th.

Wheat—No. 1 54c, No. 2 49, No. 3 45c, No. 4 43, No. 5 39c, No. 6 37, Feed 37c.

Oats—2 G. W. 22c, 3 C. W. 19, No. 1 Feed 19c.

Barley—3 C. W. 27c, 4 C. W. 25c.

Bacon Hogs \$4.10

ARMISTICE DANCE WED., NOV. 11th.

\$10.00 TO BE GIVEN AWAY

The Crossfield Legion (B. E. S. L.) are holding an Armistice Dance in the U. F. A. Hall on Wed., Nov. 11th. One of the best Calgary orchestras has been secured for the occasion and the boys are out to put it "over the top."

A new ten dollar bill will be given to the person holding the lucky ticket. Admission: \$1.00 a couple, or 50c a ticket. Ladies' please provide.

Board of Trade Luncheon Friday, November 13th.

The Board of Trade will resume their monthly meetings on Friday evening, Nov. 13th at the Oliver Hotel. Luncheon at 6.45.

Mr. I. F. Fitch, president of the Calgary Canadian Club will address the meeting.

The Board has not been holding meetings during the busy season, but now the farm members are over their fall rush a good attendance is looked for. Remember the date—Friday, November 13th.

SCHOOL TAXES HAVE BEEN POURING IN

Ivor Lewis, secretary of the Crossfield District states that taxes have been coming in exceptionally well during the past ten days, and that the finances of the school district are in better shape today than they have been in years. All this in spite of the fact that the School Board found it absolutely necessary to make certain repairs to the school and build a new barn this year.

Many of the taxpayers this year paid their taxes before the end of October and saved 5 per cent. The School Board also saved considerable by having repairs done this year when labor and material is down from 25 to 50 per cent.

Crossfield Legion To Attend Memorial Service

The Annual Memorial Service will be held on Wednesday, November 11th. All ex-service men are requested to parade at Town Hall at 10.30 A. M. A short service will be held at the Anglican Church.

New Grades Urged For Garnet Wheat

Garnet wheat will be excluded from the contract grades of the northern classes after July 31st, 1932 if a resolution, passed unanimously by the western grain standards board recently, is approved and the Canadian Grain Act duly amended at the next session of parliament.

The resolution urged that it be graded as a separate variety of wheat in grades to be known as number one, two or three garnet with anything which falls to meet with the requirements of these grades, being included in the lower grades of red spring wheat.

School Literary Notes

The regular meeting of the School Literary Society was held in the Masonic Hall, Oct. 30. The officers elected for the year are: President, Mac Purvis.

Vice-President, Myrtle Methers.

Secretary, Eva Jarman.

News Reporter, M. Fitzpatrick.

A committee consisting of Lily Michel, Desley, Hyde, Kathleen Fitzpatrick was elected to assist the executive in planning programs for each meeting.

Mr. Collier then made the presentation of medals won by Crossfield students at the annual track meet held in Inuitfall, Oct. 2.

Send in your local news. Thanks.

A Call To Service

Throughout Canada and the United States national campaigns are now in progress to raise funds and supplies wherewith to meet the needs of hundreds of thousands of people without employment and lacking the very necessities of life.

In the United States a great voluntary organization has been called into existence upon invitation of President Hoover, and it is now engaged in a whirlwind campaign organized upon similar lines to those followed during the war and in the recent Red Cross flood disaster appeal. The press, the theatres, the radio, the pulpit, every known kind of organization—all are being mobilized with a view to raising tens of millions of dollars within a few weeks.

In Canada, the Federal and Provincial Governments have assumed responsibility for relief measures, assisted by the municipalities. During the last session of parliament, following Premier Bennett's description of the existing situation in Western Canada as "a national calamity," the House of Commons unanimously voted an unlimited amount of relief. It was not made a party issue, but the Government's request for adequate funds was supported by Conservative, Liberal, Progressive and Labor alike.

But in Canada, as in the United States, the magnitude of the need, and the urgency of the claims of tens of thousands of people upon the sympathy and practical support of their fellow citizens, calls for the active cooperation of all people and organizations. The problem is too big for even the united forces of Federal and Provincial Governments.

The Prime Minister of Canada has, therefore, made an appeal to all the people of Canada, and all the organizations of Canada, to support a nation-wide campaign to raise funds to supplement the efforts of governments in meeting the needs of those who must be supplied with food, clothing, fuel and shelter throughout the coming winter months.

In other times of national disaster, such as the Halifax explosion and the northern Ontario fires, or international disasters like the Japanese earthquake, the people of Western Canada organized their forces and gave generously to the needs of the stricken. This year not so much will be expected from the people of the Prairie Provinces; instead of being given, thousands of our people will be the recipients. It is because of the Western situation that the present appeal is made; it is in the West that conditions approaching a national disaster exist.

Nevertheless, there is much that our Western people can do to assist each other; much that neighbor can do for neighbor, and friend for friend. There are thousands of us who can still spare a little something for somebody else. Quite a considerable number of people have already "adopted" some other person or family and have been assisting them for months past, and will continue to do so while the necessity exists. This quiet, unostentatious "adoption" of others in need can, without very great sacrifice on the part of many, be very greatly extended. It will assist Governments in meeting their problems; it will help to keep down the mounting burden of public debt and taxation which is liable to seriously cripple our future activities and return to better times; it will save some of the more sensitive people from "going on relief" which some regard with almost as much dismay as starvation itself.

Let us, therefore, re-capture some of the old war-times spirit of service and sacrifice. Let us feel the thrill of a great spiritual experience. Let us do our part, small though it may be, to make adequate provisions for those in need in our own communities, so that the fear of cold and hunger will be banished from the hearts of thousands of our fellow-citizens. Such gifts bless the giver. It will lift your own spirit. It will help to end the depression and lay a firm foundation for better times. These great national campaigns in Canada and the United States may well prove the turning point in that direction. Therefore, do your part, liberally as you can; most gladly in any event.

Fine Collection of Paintings

One of the finest collections of paintings in the world is soon to be gathered in a new gallery at the Vatican. The gallery covers an area of more than 9,000 square yards. Half a dozen spacious salons will house paintings of six principal art schools, from the Byzantine to that of the 18th century. Two special galleries in Canada, in the country districts there is plenty of food and by turning a hand to this or that a little money can be brought in to keep the wheels moving. Expenses are cut to the bone and there is a general attitude in almost every quarter to make the best of things.

The debts are the trouble. Even if collection of them is not being pressed they remain a grim shadow in the background, a growing shadow on account of the mounting interest charges.

There is too much debt, some of which was incurred much more cheerfully than it can be paid. There ought to be a moral somewhere about this—Regina Leader-Post (Evening).

The Greater Trouble

Debts Contracted In Prosperous Times Are Burden Now

"We would not be too badly off if it weren't for our debt," remarked a man at a rural gathering the other night.

There is a world of meaning behind such a remark. In most places in Canada, in the country districts there is plenty of food and by turning a hand to this or that a little money can be brought in to keep the wheels moving. Expenses are cut to the bone and there is a general attitude in almost every quarter to make the best of things.

The debts are the trouble. Even if collection of them is not being pressed they remain a grim shadow in the background, a growing shadow on account of the mounting interest charges.

There is too much debt, some of which was incurred much more cheerfully than it can be paid. There ought to be a moral somewhere about this—Regina Leader-Post (Evening).

To Talk On India

Leaders in different spheres of Indian life will be brought to Canada shortly by the National Council of Education, in an effort to inform Canadians as to the different angles of the Indian situation, officials of the council announced at Ottawa. Lecture tours will be arranged and the speakers will appear in all the leading centres of the Dominion.

Saving Historic Battiefeld

Bannockburn, historic Battiefeld of Scotland, is to be preserved for posterity. The national committee formed last year to raise funds for the purchase of 68 acres encompassing the battiefeld, in the vicinity of Bannockburn, has just announced that it has acquired the property.

A temperature of approximately high overtook a lot of life's good is best for keeping stored apples.

Ruling On Aviation

Provinces Have Control Only Within Their Own Boundaries

The Judicial Committee of the Privy Council has allowed the appeal of the Dominion Government in Canada against a decision of the supreme court of Canada on the reference of the question of whether the Dominion or the Provincial authorities have jurisdiction over aviation matters in Canada.

The supreme court had decided the Dominion may control such aeronautical matters as are involved in international affairs and such aerial activities as the Dominion itself engages in, but ruled the provinces had jurisdiction to control and legislate on aviation matters within their own boundaries.

The supreme tribunal, however, upheld the Dominion Government's contention to supreme jurisdiction over aviation matters in Canada. Their lordships' decision incidentally upheld the validity of Dominion aeronautical legislation which had been challenged by the provinces.

SAVED IMPORTED DRESS

"After a little wearing, a lovely green voile—an imported dress—lost colour so completely that it was not wearable. A friend who had admired it asked me why I wasn't wearing it any more. On hearing the reason she advised dyeing it and recommended Diamond Dyes. To make a long story short, it turned out beautifully. I have a lovely new dress that really cost me 15c—the price of one package of Diamond Dyes."

"I have since used Diamond Dyes for both tinting and dyeing. They do either equally well. I am not an expert dyer but I never have failed with Diamond Dyes. They seem to be made so they always go on smoothly and evenly. They never streak or run; and friends, never know the things I dye with Diamond Dyes are dyed at all!"

Mrs. R.F., Quebec.

Pacific Relations Meet

Fourth Biennial Conference Is Held At Shanghai

The fourth biennial conference of the Institute of Pacific Relations, the non-official group for the discussion of international problems, was held in Shanghai. It was the first such conference in China, the first two having been held in Hawaii and the third in Kyoto, Japan. Despite the Japanese difficulties in Manchuria, complete delegations from both Japan and China were present.

Dr. Hsueh, Chinese poet, philosopher, and cultural leader, president of the conference said Japanese and Chinese members realized good might result from their meeting together as enlightened men and women "regardless of the calamities which befall their countries through the folly of their rulers."

Gifts For Mussolini

Shipment Of Plums From Nelson, B.C. For Italy's Premier

A gift shipment of plums from Nelson, B.C. orchard will leave here on S.S. California, for Benito Mussolini, Italy's premier, according to the Empire Shipping Company. The fruit is the gift of G. Mafo, of Nelson. Mr. Mafo is a well-known admirer of the Italian premier. Express company officials state that Fascists resident in British Columbia, Alberta and Saskatchewan send many gifts to the Italian leader.

Dread Of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all that. Relief comes, and at once, while future attacks are guarded off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

Canada's Boat Industry

The building of small pleasure boats and canoes has expanded in a marked degree within the past five years by 30 per cent. in the number of establishments and by 88 per cent. in the value of the products made. The centre of the industry is Peterborough, Ont., where about 25 per cent. of the craft are turned out, the value of which runs to about \$600,000, while the production of all Canada is around \$2,000,000.

for COLDS

Head Cold, Hot, Stuffy, Sore Throat, Cough, Sneezing, Runny Nose, etc. Real relief... quickly!

MINARD'S "KING OF PAIN" LINIMENT

NEURITIS HAS GONE!

Banished by Kruessen

"I had acute neuritis in the shoulder and left arm, due to exposure to bad weather," writes the Rev. H. E. T. "It was impossible to lift the arm to dress to use it in any way, and, of course, the pain was dreadful. All external applications were tried, but I got it completely normal again by keeping the parts affected warm and taking daily, early in the morning, Kruessen Salts in a tumbler of hot water. It took nearly a month, but every vestige of neuritis has gone."

Neuritis is typical of a dozen other complaints—some minor, some very serious—which all result from impurities in the blood. And it is impure blood, circulating all over the system and setting up inflammation in the tissues, that causes those distressing ailments.

Kruessen Salts can be safely trusted to set the matter right. Because Kruessen contains just what Nature needs to persuade your internal organs back into a healthy, normal condition.

Britain's Population Grows

Increase In England and Wales Two Million Every Decade

The census figures bring home another significant fact that underlies and conditions every one of our social and political problems.

The population of England and Wales is 40,000,000, as near as may be. Add the figure previously given for Scotland, just under 5,000,000, and we get a total population of 45,000,000 for Great Britain.

The number of people in England and Wales is increasing at the rate of 2,000,000 every decade. At the beginning of the nineteenth century it was only 9,000,000. At the beginning of Queen Victoria's reign it was only 15,000,000. At the time of the 1901 census it was only 30,000,000.

Here the present rate of increase to continue, England and Wales in the year 2031 would be something like 50,000,000. The density of population for Scotland, just under 5,000,000, would be the present rate of increase to continue, England and Wales in the year 2031 would be something like 50,000,000. The density of population for Scotland, just under 5,000,000, would be the present rate of increase to continue, England and Wales in the year 2031 would be something like 50,000,000.

It is only the blindest faith in material progress that dare count on such a revolution to avert the terrible consequences that must follow the pressure of population upon its means of support.

Nor is it possible to assume that the surplus could be disposed of by emigration. The great mass movement of the population outwards, from Europe to the rest of the world is already a thing of the past. There is no reason to think the new countries will lower the barriers which—under pressure of their economic situation—they have raised against immigration. —Daily Herald, London, England.

An Oil For All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine boxes and be amongst those taken on a journey.

Thirst For Knowledge

Two Children Support Themselves By Trapping White Attending School

Supporting themselves by trapping, two children, aged seven and nine, endured the hardships of winter in the north country living in a tent so that they could attend school.

This was the story told at Toronto, Ontario, by Dr. J. H. MacDougall of the Provincial Department of Education, addressing the convention of the National League of Compulsory Education officials.

In their thirst for learning the children, David and Arthur Clement, whose mother had died and whose father had returned to his trap lines around Hudson Bay, mushed 40 miles with a dog team, pitched their tent in five feet of snow in a spruce forest, and attended the school-car all through the winter on the five days each month in which it was in their district.

Even when the temperature sank to 50 degrees below zero they did not miss a day, Dr. MacDougall said.

Outwitting Payroll Bandits

A business concern in Buenos Aires moves its payroll through the streets of that city in a strong-box mounted on a vehicle geared so that it cannot travel fast. Robbers who capture the safe must creep away from the scene at a steam-roller pace.

To the conservative minds of many airplane accidents serve as advertisements for the railroads.

A high-bicycle race was held at Herne Hill, England, recently.

A collapsible automobile trunk made of fabric has been produced.

Both Premiums and Losses Much Lower

Marked Drop Shown In Business Of Hall Insurance Companies

Business done by the 53 line hall insurance companies operating in western Canada in 1931, amounted to only about one-sixth of the 1930 total, both the income and losses of the companies being reduced to this proportion of the previous year's business.

Net losses amounted to \$403,651 in 1931, as against losses of \$2,651,326 last year. This represents a saving of \$2,248,275 in 1931 from the 1930 figure.

At the same time the gross premiums in the three prairie provinces dropped from \$2,865,389 last year to \$431,120 in 1931. Accordingly the gross income of the companies decreased by \$2,625,369 during the present year.

These conclusions were to be drawn from figures supplied to The Regina Leader-Post by H. H. Campkin, secretary of the Canadian Hall Underwriters' Association.

Alberta had suffered particularly heavy losses in proportion to the premiums paid for the past few years, Mr. Campkin indicated.

"From the repeated disastrous experience in the province of Alberta, many of the companies are seriously considering withdrawing from that province or from the hall insurance business entirely," he said. "Three companies in business since 1916 have already signified their intention to discontinue writing this class of insurance."

Of the 53 companies whose premiums and losses were represented in the figures he said, 36 were now writing in Alberta, 51 in Saskatchewan and 46 in Manitoba.

The gross premium totals the expenses of carrying on business would have to be deducted.

Plowing By Radio

Demonstration By Montana Farmer Shows It Is Possible

It may not be long now before farmers throughout the country will be doing their plowing by radio. J. J. Lynch of Miles City, Montana, demonstrated this possibility by plowing around a thirty-acre field with a tractor operated by radio.

Two hundred expert electricians, radio operators and business men from most of the Central States witnessed the demonstration. They said it was the first time in history that a tractor, so operated, had actually plowed ground.

New Zealand Trip Suggested

Suggestion that a Canadian trade delegation composed of 30 or 40 of the Dominion's leading manufacturers and business men visit New Zealand and Fiji to foster trade between those countries and Canada, was made by F. C. Brown, chairman of the B.C. division of the Canadian Manufacturers' Association.

Big woman—"What do you think of the new neighbor, John?" Little Man—"Whatever you say, dear."

Raising goldfish for the market has developed into a \$1,000,000 industry.

"I'M going, anyway"

THE modern Miss needs no "time out" for the time of month.

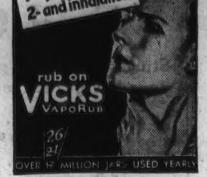

If you've ever taken Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry on in comfort. Take enough to assure your complete comfort. If it is genuine Aspirin it cannot possibly hurt you. Aspirin tablets do not depress the heart. They do not upset the stomach. They do nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Aspirin will always ease the distress. A throat so sore that you can hardly swallow is made comfortable with one good gargle made from these tablets. Neuralgia. Neuritis. Rheumatism. Pains that once kept

Famous Cathedral Cleaned

French Remove Tons Of Dust From Notre Dame de Rouen

Normandy's famous Gothic cathedral, Notre Dame de Rouen, has just emerged spick and span from its first vacuum cleaning. Five tons of dust were removed in the process.

Every corner of the great building with its lofty towers and innumerable chapels crowded with tombs, was penetrated and cleaned. The stone saints and kings on the west front received a scrubbing; their hands and faces were washed and their robes relieved of the incrustations of centuries.

In order to accomplish this cleaning, special instruments had to be constructed which included "flying scaffolds" and "rolling platforms." Incidentally, four paintings of Biblical subjects, forgotten for many years, were discovered in one of the towers by the cleaners.

The success of this cleaning has been such that it is expected that other cathedrals, especially those containing fine rose windows and stained glass, will follow this example.

Winter Traffic

Manitoba To Keep Six Provincial Highways Open During Winter Season

Six Manitoba trunk highways are marked by the government Good Roads Branch to be kept open for 1932 winter traffic. They are: Winnipeg to western boundary of the province via Portage la Prairie, MacGregor, Carberry and Brandon. Winnipeg to Stonewall. Winnipeg to Winnipeg Beach. Winnipeg to Whitecourt. Winnipeg to St. Anne. Winnipeg to Emerson.

Testing New Sealplane

A seaplane that can be taken apart and reassembled in a tube in three minutes for carrying on a submarine is being tested by the United States navy. England already has adopted a submarine aeroplane.

Sees New Period Beginning In Expansion And Development Of Business In Western Canada

(By John F. Sweeting, Industrial Commissioner, Western Lines, Canadian Pacific Railway)

No change of perspective note has taken place in the West during the last month. Conditions remain steady with varying changes in trade and some seasonal increases. The grain crop has been rapidly harvested and, while short in volume in the West, is of good grade. Advantage has been taken of the favourable weather to prepare land for the 1932 crop, and heavy rainfalls at intervals in different parts of the West have put the land in good condition for such operation.

One of the most interesting events during September was the visit of the Canadian Chamber of Commerce to the West and the holding of its annual meeting in Regina. The visit brought with it the opportunity of a full discussion on Canadian affairs and conditions, and enabled a broader view of the existing situation and prospects for future business to be gauged than is possible when considering only local affairs. It is probable that in paying so much attention to the debt side of current business, the value of Canada's assets, which apparently amount to something over thirty billion dollars, not including undeveloped natural resources, has been overlooked. While such resources are not, of course, inexhaustible, they are factors in calculating the business of Canada for future years.

It is along these lines that present business must give heed to what it is going to accomplish in the next 10 years, rather than to its immediate outlook. Granted that the industrial situation has shown some retrogression and the crop of the West is below the average in quantity and price, the crop situation in Eastern Canada; the increase in construction work; the tourist business; lower production and living costs, must be factors in the building up of new business, which will show much greater gains, by reason or present reductions, under the upward movement starts. Perhaps the present is being watched closely to see the coming change, or only the immediate situation is being envisaged, while not enough heed is being given to what the future holds in store.

Industrial enquiries coming into the West are of sufficient significance to give rise to the idea that a good deal of consideration is being given to this field as a manufacturing centre, and that if plans for actual development are being held up, there is no slackening in the investigations taking place by representatives from Great Britain and the United States. Conversations which have taken place between the West and overseas representatives all look to the ultimate development of Western branches in a field that will yield good business in the near future, and which recognizes the necessity of manufacturing within the territory. While the present is difficult, there appears to be little doubt as to the expansion and development of the Western field in the not too distant future.

Undoubtedly, the low price of staple articles has produced a good flow of domestic business, but the many uncertainties in the present situation, notwithstanding low costs, are holding up the purchase of major products, such as machinery, which means that the large industries are not getting the necessary support. Confidence is still lacking in relation to the situation as a whole, but constructive efforts are being brought to bear on a situation which must, by reason, so far as Canada is concerned, of its productive powers and ability to find new markets, soon get back to a trading level of characteristic proportions. This is essentially the beginning of a new period, within which consideration must be given to future business.

"Is a crime being committed in that hut?"

"Much more wonderful. A man lives there who has forsaken the world to become a hermit."—Kasper, Stockholm.

W. N. U. 1914

Winter Housing Of Poultry

(Preparing Winter Quarters For Reception Of New Flock)

(By Arthur Ray, President of Saskatchewan Poultry Association)

The building which is used to house the poultry flock this winter, and which was occupied last year, will probably require some very important preparations for the reception of the new flock which is to occupy it. The house must first be made free from parasites and disease germs in order that the health of the birds may be maintained and that they may be enabled to function normally. To do this the inside walls, floor and equipment must be thoroughly cleaned and given a coat of white wash to which a disinfectant has been added. If the house has an earthen floor the top two or three inches should be taken out and four to six inches of fresh clay should be well tamped in. The yards too should be cleaned up and all rubbish and litter burned.

Broken window glass should be replaced and thin unbleached cotton should replace that which has been torn. The ventilation system should be examined. If the moisture given off from the lungs of the birds is not carried out of the house, write the Poultry Department, University of Saskatchewan, Saskatoon, or the Poultry Division, Livestock Branch, Department of Agriculture, Regina, for information on ventilating the poultry house. The house with a straw loft should have the straw taken out and fresh straw put in each fall. The straw should be well packed to a depth of two or three feet.

The equipment should consist of one nest for each five or six birds, dropping boards placed about 20 inches from the floor and eight to 10 inches beneath the roosts; hopper for dry mash placed on a stand about 15 inches from the floor and receptacles for grit, water and feed.

When the young stock is brought in from the range and placed in permanent winter quarters, care should be taken to avoid over-crowding them and the house should be left as open as possible during the first week or 10 days so that the change from range conditions to confinement will be gradual.

All undersized or deformed birds or birds that are decidedly off-type or apparently diseased, should be removed from the flock.

It is calculated that, including losses from revolution, famine and pestilence, the Great War deprived the world of no fewer than 40,000,000 lives.

Facts About Baffin Island

(Largest Island In the Canadian Arctic Archipelago)

Baffin Island with an area of 200,000 square miles is the largest of the islands in the Canadian Arctic Archipelago. Its very size is the reason that though it was visited by Martin Frobisher, the great Elizabethan seaman in 1576, it has not borne the name Baffin longer than forty-five years.

Though the coast line was pretty well known by 1822 when Parry passed through Fury and Hecla Strait, there was still uncertainty as to whether various deep bays were actually bays and not channels dividing the island into several islands. Even Arrowsmith in his map of 1854 is not sure on this point. His map gives no name to the main island. The southern portion near Frobisher Strait he calls "Meta Inconita," a name given by Queen Elizabeth following Frobisher's discoveries. Near Cumberland gulf the name Cumberland Island is written, a name applied to the whole island on Foxe's map, 1625. The northern portion of the island Arrowsmith calls Cockburn land, as Parry named it in 1822. Another name not shown by Arrowsmith is Foxe land applied to the southwest portion of the island, after Foxe's discovery of it in 1631.

The name Baffin, as far as the Geographic Board of Canada is aware, was first applied to the island on Admiralty Chart No. 563 published June 28, 1884. The island adjoins Baffin Bay and its eastern shores to their northern limit were seen first by William Baffin, the British explorer, when he penetrated as far north as Smith Sound on his fifth polar voyage in 1616.

World Needs Less Fear

People Cross Bridges They Very Seldom Come To

Commenting upon the fact that 40,000,000 Americans are engaged in work, going to ball games and driving automobiles, the Kansas City Star says:

"Yet when they see the stock market breaking they set up a wall and say there must be a long, cold winter ahead, and maybe the old suit of clothes will do for another year. Meanwhile an energetic and intelligent people is at work creating and exchanging goods, getting rid of surpluses and laying the foundation for a drive ahead. If the country could only forget the stock market for a month and work and live as usual, it would be surprised at its progress."

There's a lot in this. If a lot of us would stop thinking about disasters that are going to come, but which never come, and would go about our daily tasks cheerfully and without fear, things would be a great deal better. We're all in fond of crossing perilous bridges before we come to them.—Ottawa Journal.

The Young Man—"What time is it getting to be?"

The Young Lady—"I don't know but it was Thursday when you came."

Memo—Go Fishing!

The fishing season of 1931 may be drawing to a close, but the ardent angler, packing away his rods and flies with a sigh, has still many a fishing treat in store through the medium of "Memo—Go Fishing," just published by the Bobbe-Merrill Company and written by Bob Becker, internationally known fisherman and for the past ten years editor of "Woods and Waters" in the Chicago Tribune. Mr. Becker has played swordfish in the Pacific; hooked sailfish in the Gulf Stream; taken Dolley Varden trout from Alaskan waters, and angled for golden trout in lakes 11,000 feet up in the Sierras. From bass to barracuda, from trout to tuna, from pike to piranha, he tells of them all in many an exciting battle where sometimes he and quite often his quarry came off best. Canada is however his predilection, judge by the amount of space given the Dominion in this book of 350 pages. The French River, Nipigon River, and Lake of the Woods region are the scenes of many of his adventures and whole chapters are devoted to the wily musky and the fighting bass that have made these waters famous. Photographs show last phase of a battle with a trout on the Nipigon River.

Canada Holds Fourth Position In Per Capita Trade Among Trading Nations Of The World

Standardized Pronunciation

New Form Of English Suggested To Be Called Anglo-American

If, in the future, there is to be a standardized pronunciation of the English language there is a possibility that part of the credit must be given to Hollywood. Since the advent of the talking films the defects of British and American speech have been increasingly apparent. Instances in which the pronunciations of the two countries differed radically have necessitated the making of both an American and an English version of the same film. This is the case in a recent picture containing frequent use of the word "lieutenant" which is pronounced "lieutenent" in the English version and "lootenent" in the American version.

Now, questions Herbert Marshall, a London actor, who should there, not be a new form of English embodying the best points of both countries' speech and acceptable to audiences in Australia as well? He suggests that the language be called "Anglo-American" and concludes that it is probable, on the whole, that "Anglo-American" will be more "Anglish" than "American" though, he adds, Englishmen will of course, have to adopt many of the American words and forms of expression, as they are now doing, and Americans in turn will have to adopt more of the English forms of courtesy.

Mr. Marshall illustrates the necessity for the standardization of the "a" sound on the part of the English by using the word "plaza." In its correct Spanish form, the word has almost the form sound of "plaza." Some Americans call it "plaza" and others "plazas." The affected English say "plawza." The ignorant say "plawza." There is a confusion of terms with an "a" sound. The correct "Anglo-American" pronunciation, he adds, is between "plazza" and "plawza."—Christian Science Monitor.

New Cancer Serum

Ontario Doctor Announces Discovery That May Be Of Great Importance

After 40 years of research into the causes and effects of cancer, Dr. J. E. Hett, of Kitchener, Ont., announces he has discovered a serum that diagnoses and also cures cancer. Dr. Hett claims he has used the serum on a sufficient number of presumably incurable cases with positively verified results.

The serum, according to Dr. Hett, is effective in the initial and advanced stages of the disease. Cases, however, that have gone into the final stages of the malady are beyond the help of the serum.

The feature of the serum is its effectiveness in diagnosing the presence of cancer in the tissues either external or internal. According to the claims made by Dr. Hett, patients suffering from cancerous growths in all stages but the final, establish a definite reaction to the inoculation. There is no reaction to the serum if the patient is not a cancer sufferer.

Dr. Hett states that inoculation with the serum arrests the growth of the malignant tissue and thus makes feasible the combination of surgery in the treatment as the tumor may be removed either before or after the use of the serum.

Dr. Hett is convinced cancer is of germ origin. He is now working on a media and method which he expects will render cancer germs viable.

Giving All They Can

Hats off to the unemployed of Walkerville, Ontario, who offer to give part of their spare time, gratis, to removing leaves and rubbish from the parks and boulevards of the town and to gathering in fruits and vegetables for welfare work, while their wives sew and knit. When the workers help one another and show an appreciative spirit the heart of the community goes out to them.

Not Safety In Numbers

Keeping his uniform trousers in pawn for nearly four months cost Police Sergeant Victor Lehmann his job. He managed to get along by borrowing trousers from colleagues who happened to be off duty—until one day the whole police force was called out. The sergeant had to report in civilian trousers and was dismissed immediately.

All is fair in love and war—or, in other words, during courtship and after marriage.

Many a wife has lost her mind by giving it to her husband in chunks.

Canada continued to hold her position as the fifth trading nation of the world in 1930, according to the annual report of the Department of Trade and Commerce issued recently.

In per capita trade among the world trading nations the Dominion had risen from seventh position in 1913 to fourth position in 1930, while gradually moving down the scale in per capita volume of importations.

In production of printing paper, nickel, and asbestos, the Dominion led all others. Canada is the world's second largest gold producing country, and in output of wheat and zinc holds third place.

As far as exports are concerned the Dominion leads the world in wheat, newspaper, nickel and asbestos, is second in the export of automobiles and wheat flour, while ranking high in wool pulp, lumber, fish, copper, raw fur, etc.

Depressed values the world over are reflected in the trade figures for the current fiscal year. Reports issued by the Department show that for the first half of the fiscal year—April to September—the exports of imported commodities having a value of \$318,221,727, while the value of exports was \$295,516,989.

The imports were about \$195,000,000 lower than for the corresponding period of 1929 and the export values dropped by about \$138,000,000.

Duty collected during the six months was \$61,312,307, as against \$80,143,335, or roughly \$19,000,000 under collections for the same period a year ago.

Wood Buffalo Park Map

Most Northerly Area Of Any Size Mapped In Canada

As an aid in the administration of the Wood Buffalo Park by the North West Territories and Yukon Branch of the Department of the Interior, there has just been issued by the Topographical Survey of that Department a map of the park on the scale of eight miles to the inch.

This park lies west of Slave and Athabasca Rivers, partly in the province of Alberta and partly in the Northwest Territories, and comprises some 17,500 square miles. It is beyond the present range of intensive settlement and as a consequence maps of this region have been greatly lacking in detail, thereby rendering more difficult the problems of administration.

The present map is designated as an exploratory edition only due to the fact that the information as yet is by no means complete and much further work is required to make it so. The mapping information was largely obtained by the use of aerial photography and to date this area is the most northerly one of any considerable size so mapped in Canada.

In Honor Of Edison

Suggestion of a national holiday honoring the late Thomas A. Edison, has been broadened into a proposed International Edison Day. The Board of Trade, Legion Post, Chicago, which proposed the idea, received a communication from Peterborough, Ont., advocating a movement to have the League of Nations set a date for a world holiday in memory of the inventor.

Dehydration Of Market Fruit

Canada imports annually almost 90,000,000 pounds of dried fruit. To find out whether or not much of this could be profitably replaced by Canadian grown stock the Department of Agriculture at Ottawa has been operating experimental dehydration plants in the provinces of Ontario, Nova Scotia and British Columbia.

Car handlets took a safe containing only twenty shillings from London to Bristol before they discovered the fact. Nice to know a pound will go so far these days.

"I have been trying a hair-restorer, with no success."

"You must persevere."

"I have—I have already drunk six bottles."—Pages Gales, Yverdon.

U. S. IS WILLING TO ENTER INTO A NAVAL TRUCE

Washington, D.C.—The United States advised the League of Nations it is willing to join in a world-wide truce on armament construction for a year. A note expressing wholehearted approval was addressed to the League at Geneva after a final conference between President Hoover and Secretary of State Henry L. Stimson.

State department officials said the message was not a lengthy one. This was interpreted as indicating that acceptance was not accompanied by numerous reservations.

This government is understood, however, to have specified that the holiday shall not apply to vessels already under construction, and that it affect only new construction which otherwise might have been started during the holiday year.

On this point the nations are reported to be in agreement as it is felt that a sudden cessation of work in the naval shipyards would have serious effects upon employment.

The U.S. note was in reply to an invitation extended by the League late in September, urging the 52 nations which are to take part in the general disarmament conference at Geneva in February to join an immediate arms truce calculated to further the success of that event as well as to relieve the nations of a heavy financial load.

The league called upon the governments to state whether they are prepared to accept an armament holiday covering a period of one year from November 1st.

The nations were asked to promise in general terms "to refrain from any measure involving an increase in their armaments." At the same time they are given opportunity to set forth in detail their understanding of what this would involve.

Hinkler Sets 'Plane Record

Puss Moth Machine Used In 1800 Mile Flight

Kington, Jamaica.—Bert Hinkler, Australian flyer, who once held the Australia-England flight record, landed here at the conclusion of a non-stop flight from New York. His time was 18 hours.

Toronto, Ont.—The flight of Bert Hinkler, noted Australian flyer, from New York to Kingston, Jamaica, set a new record for a Puss moth aeroplane, said V. O. Levick, superintendent of the De Havilland Aircraft Co. of Canada, Ltd.

The distance was about 1,800 miles. Previous record for a "plane of that type," Mr. Levick said here was set by Amy Johnson, famed British aviatrix, recently, when she flew from London, Eng., to Warsaw, Poland, a distance of about 1,000 miles.

Willing To Accept Shipments Next Year

Owners Of Ships Used In Bay Test Ready For Future Cargoes

Montreal.—The Montreal Gazette publishes the following despatch from its Ottawa correspondent:

"B. S. Dalgleish, Limited, of New-Castle-on-Tyne, owners of the 'Farnworth' and 'Warkworth,' the two vessels which took out the first wheat cargoes from Churchill this fall, have communicated to the Department of Marine here, their readiness to do business again next year if, and when grain cargoes from the terminus of the Hudson Bay Railway are opened."

Bartering Wheat For Coffee

Brazil Has Plan Which Was Submitted To United States

Chicago.—George S. Milner, president of the Grain Stabilization Corporation, has made public the plan of the coffee trade to dispose of 1,050,000 bags of coffee obtained recently from the Brazilian Government in exchange for 25,000,000 bushels of wheat. The plan, submitted by the National Coffee Roasters' Association, would become effective in October, 1932. It provides for the sale, to the highest bidder, of 62,500 bags of coffee each month thereafter.

Fascist Celebrates

Rome, Italy.—Italy recently celebrated the ninth anniversary of the arrival of the Fascist march on Rome, which carried Benito Mussolini into the premiership and started the present Fascist regime.

W. N. U. 1914

Western Farmers Benefit

Advance In Wheat Prices Estimated To Increase Revenue By \$10,000,000

Ottawa, Ont.—Western farmers will benefit to the extent of \$10,000,000 or \$10,000,000 as a result of October advances in wheat prices, according to a rough estimate made by the Dominion Bureau of Statistics. The Bureau estimates that the increased prices may add from \$25,000,000 to \$30,000,000 to the value of wheat stocks held in all positions in Canada.

In a statement prepared for Hon. H. Stevens, Minister of Trade and Commerce, the Bureau gives the cash closing prices of wheat at Winnipeg on October 1 and on October 21. It is on the basis of this comparison that the Bureau estimates at more than \$8,000,000 the benefit to western farmers of advancing wheat prices. Increases are registered all along the line from No. 1 Manitoba hard to No. 1 and 2 tough Northern and No. 1 and 2 Durum. The average advance, states the Bureau, is about nine cents per bushel, or nearly double the bonus of five cents per bushel which is being paid.

"The average farmer in this region has about 65 acres of wheat, yielding about 25 bushels to the acre, and the increase means an extra \$145 to \$150 to him."

It is significant, the Bureau continues, that these advances in prices were made during a period when deliveries of wheat were the heaviest of the season, "and thus the market was subjected to real hedging pressure most of the time."

Lady Astor Gratified Over Her Re-Election

Says English People Always Respond To S.O.S. Call

Plymouth, Eng.—Lady Astor, re-elected as Conservative candidate for Plymouth, Sutton, was much gratified by the result of the voting. "England is firm as a rock," she said. "You never see an S.O.S. to her people but they respond."

"Women have had a great deal to do with this election. They have common sense and common humanity. Although they long for paradise on earth it isn't so easy to attain, as the Socialists say."

Ontario Town Is Destroyed By Fire

Entire Business District Of Port Carling Wiped Out

Port Carling, Ont.—Practically the whole business district of this town was wiped out by a fire of under-estimated origin which broke out in the basement of the Hanna Company general store. Eleven buildings were destroyed.

"Every available fire-fighter was called out. Apparatus from Bracebridge, Gravenhurst and Orillia, aided. No estimate of the damage was available."

Soviets Disappointed

London, Eng.—News despatches from Riga credited Joseph Stalin, Soviet chief, with the statement that the British mentality is "inscrutable." The Riga despatches also said that Stalin remarked reports from Communist agitators in Britain were unreliable.

Five-Year-Old Voter

Belfast, North Ireland.—Five-year-old Ernest Motherwell voted in the British general election. In Ulster no one whose name appears in the register is barred from voting if he can articulate the name of a candidate. Ernest could.

Comments By London Press

National Government Organs See Vote As Crushing Blow To Socialism

London, England.—National government organs are jubilant over the election result and generally described the overwhelming victory as a crushing repudiation of socialism. The Daily Telegraph says the "nemesia of political folly and weakness has been swift and deadly. Leaders who betrayed their trust and the party that upheld them have been taught a lesson that will long be remembered."

The newspaper adds that the National Government has a majority far beyond its expectations and that the road is open for enterprise in setting the country on its feet, and leading it into a new path of progress and prosperity.

"The result is an absolutely shattering blow to Labor," comments the News Chronicle. There has been nothing like this landslide since 1918."

The Daily Mail attributes the government victory to a growing enthusiasm in Great Britain for tariffs and the determination of the working class to lead a death blow to "predatory socialism."

The Daily Express says the Socialist party is wiped out by the election result.

"The country has delivered its judgment in no uncertain terms upon the men who ran away," comments The Times.

WANT EMPIRE MEET ARRANGED FOR EARLY DATE

Ottawa, Ont.—The Canadian Government will propose to the various governments of the empire that the imperial economic conference, the assembling of which last August was postponed, meet at Ottawa "at the earliest possible date." This was the statement issued to the press by Rt. Hon. R. B. Bennett, the Prime Minister.

In his statement the Prime Minister expressed the hope that former difficulties surrounding the plan for holding the conference in the Canadian capital "had now been removed."

Mr. Bennett was asked whether, in his opinion, the return of the National Government in Great Britain would mean an early meeting of the imperial conference which, on motion of Canada at the London conference a year ago, was unanimously adjourned to meet at Ottawa "within the succeeding twelve months." In reply, the Prime Minister authorized the following statement:

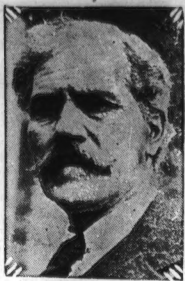

"As the suggested date of meeting was later found to be inconvenient to several of the governments concerned, a postponement became necessary. The Canadian Government earnestly hopes that the difficulties heretofore prevailing have now been removed, and it will immediately propose to the governments of the empire that the conference meet at Ottawa at the earliest possible date."

"This government is confident," continued the Prime Minister, "that the conference will achieve an enduring plan of closer economic association. The need for such an association was never more apparent. Canada will do its full share to bring it about."

Blind Veteran Regains Seat

London, Eng.—Capt. Ian Fraser, the blind war veteran, who is chairman of St. Dunstan's school for the sightless and who lost his seat in 1929, when he sought re-election as Conservative member for the London borough of St. Pancras, has recaptured his seat, defeating his old opponent, R. Marley, Labor, and a Communist candidate.

POLICY ENDORSED

Premier Ramsay MacDonald who will lead new Nationalist Government in Britain.

Warning Is Issued

Hon. H. H. Stevens Says That Canada Has Overborrowed

Toronto, Ont.—Canadians were to prone to regard business conditions in the Dominion with an attitude of pessimistic defeat, said Hon. H. H. Stevens, Federal Minister of Trade and Commerce, in an address here. At the same time he issued a warning that Canada had "overborrowed."

"A sane and reasonable perspective," he declared, addressing the annual banquet of the Advertising Sales Round Table of Toronto.

Leaves Fortune For Crippled Children

Detroit Man Gives \$200,000 To Board Of Education

Detroit, Mich.—Louis Reberg, elderly real-estate owner, gradually going blind, turned his entire fortune of \$200,000 over to the Detroit Board of Education for the benefit of crippled school children. Half the income is to go to Reberg during his lifetime and half to be used to furnish crippled children with better educational and health facilities. After his death, income and principle are to be paid out for benefit of crippled children.

Officials Silent Over Seizure Of Airplane

No Information Given Regarding Capture Of U.S. Machine

Ottawa, Ont.—Officials of the customs department were reticent with regard to the seizure of a United States plane, which was taken in custody when its operators were loading it with liquor in a field near Ayer, Que. Two machines of the Royal Canadian Air Force, transporting customs preventive officers, effected the capture.

The plane is reported to have come from Rochester, N.Y., and is said to have made several trips here recently.

Newspaper Staff Strikes

Mexico City.—Failing to accede to employees' demands that back salaries, said to total about \$12,000, be paid immediately, the newspaper plant of El Universal, one of the two leading morning newspapers, was closed by an employees strike.

New Cabinet Formed

Asuncion, Paraguay.—Provisional President Gonzalez Navarro formed a new cabinet to continue the Liberal party's administration of Paraguay, retaining Foreign Minister Zubizarreta and Minister of Justice Gonzalez.

Message To the Nation

Ramsay MacDonald Refers To Response To Call For National Unity

London, Eng.—Prime Minister Ramsay MacDonald issued a message to the nation, thanking millions of persons of all parties who for the moment "subordinated party feelings and issues to the pressing national needs."

"A majority unique as it is gratifying which was given today must convince the whole world that when this country calls for assistance willing hands and devoted minds will always respond heartily," the message said. "We appealed for a demonstration of national unity. The response has been far beyond the dreams of the most enthusiastic of us."

"To my political friends who have suffered such unusual reverses and especially to those of them who with splendid faith and courage backed our appeal and helped to swell our victory, I give assurance that our triumph will in no way mean that either the interests or the point of view of the working classes will be over-looked in the performance of the task before us."

Less Emigration To U.S.

Fewer Visas Are Issued To Canadians, Says Report

Washington, D.C.—Only 1,004 Canadian received immigration visas for admission into the United States during September, as compared with 6,151 in the corresponding month in 1928.

The figures as announced at the state department reflect a decrease of 84 per cent. September, 1928, was used for comparison as it was the corresponding month of the last normal fiscal year.

The figures, the state department said, "show the large reduction in the number of immigration visas issued to residents of Canada since the enforcement by United States consular officers of the newly become a public charge provision of the Immigration Act of 1917."

NATIONALISTS' VICTORY SETS A NEW RECORD

London, England.—"This is no party victory," declared Rt. Hon. Stanley Baldwin, Conservative leader. "It is an emphatic declaration by the people as a whole in favor of national co-operation in order to restore the fortunes of the country. Democracy has justified itself in the most striking fashion and the patriotic instincts of our people have been revealed in all their strength."

Mr. Baldwin was speaking not merely as the leader of the Conservative party, but as the second-in-command of a government which had just amassed the most overwhelming majority the House of Commons has seen in modern times. The Conservatives, National-Labor and National-Independents are assured a majority of 500 over all other parties combined.

The Labor party's representation in the House had shrunk from 270 to 50. Rt. Hon. Arthur Henderson, new parliamentary leader of the Labor party, who lost his own seat in Burnley, said:

"The victory establishes an overwhelming Tory supremacy. The new House of Commons will be a mockery of democratic parliamentary representation and from the standpoint of the general national interests there is a danger of disaster."

The National Government will meet Parliament outlining before the opposition by 10 to one. Probably never in British history has any government won so sweeping a majority. It is almost twice as large as the majority won by Mr. David Lloyd George's coalition in the famous coupon election of 1918. The nearest approach was the Liberal majority of 372 secured last year in 1932.

The Labor party is but a wreck of what is was, Mr. Henderson, its leader, is gone from the House. With him 12 former Labor cabinet ministers were defeated. Fourteen other former Labor ministers not in the cabinet went under with them. Rt. Hon. George Lansbury alone is left of all the late members of the Labor cabinet who declined to follow the Prime Minister. With this present standing of 50, Labor has not returned so few members to parliament for 20 years.

In the general election Labor lost 235 seats without making a single gain. The Conservatives, who swept the country from end to end, gained 298 seats and lost none—a record which again is probably without parallel in the history of the "Mother of Parliaments."

BISHOP SEES A GREAT FUTURE FOR DOMINION

London, Eng.—Rt. Rev. Arthur Foley Winnington-Ingram, Bishop of London, writing of his recent visit to Canada, in the "Empire Review," which appeared Thursday, October 29, suggests "if the \$200,000,000 spent upon keeping people unemployed in England could be spent in developing Canada, there would be something to show for it, and something which would permanently benefit the world in general."

The bishop writes that what impressed him most on his tour was that Canada would never become the great nation it should be without a far larger population. "It is all laid out for a great population," he writes. "The Canadian system will never pay without many more travelling. Of course the increase must be gradual and as the nation can absorb it. Canada might be, and may be, the greatest nation upon earth," he writes. "She strikes the earth at a most strategic point of the earth's surface. She has undeveloped riches beyond count. All she needs are men, boys and girls to unearth the fullness of her life, and the majority of them should be British-born."

"Let Canada not be narrow minded," the bishop continues. "Let her open her arms to all honest workers from all nations, but do not let them crowd out the old British stock. She is bound to the red strand of blood and sacrifice, the white strand of pure home life, and the blue strand of commercial honesty and integrity."

"Let the cord never be broken," he writes in conclusion, "and if it is kept firm and if, in ever increasing numbers, we go over from the Old Country to help her in developing her strength, then the Canada of today, great as it is, will be nothing to the Canada of tomorrow."

Nobel Prize Awarded To Cancer Specialist

Dr. Warburg, Of Germany, Is Winner This Year

Stockholm, Sweden.—Dr. Otto H. Warburg, German cancer specialist, has been awarded the Nobel prize in medicine for 1931.

Four years ago Dr. Warburg won the Sofie A. Nordhoff-June thousand dollar prize for cancer research. He was at that time director of biology at the Kaiser Wilhelm Institute. He also has been active in the affairs of Palestine and at one time headed the Palestine Committee.

Last year's Nobel prize was awarded to Dr. Karl Landsteiner, who is connected with the Rockefeller Institute. In 30 years the prize has gone to a German four times.

Pensions Cost Ontario Thirty Thousand Daily

Amount Expended For Old Age and Mothers' Allowances

Toronto, Ont.—Ontario is spending \$30,000 a day for old age pensions and mothers' allowances, Hon. W. G. Martin, Minister of Public Welfare for the province, stated to the National League of Compulsory Education of Ontario at a convention here.

Mothers' allowances cost \$230,000 a month, but benefit 6,000 homes and enabled 18,999 children to get an education and went far to solve the problem of juvenile delinquency, he said.

Relief Fours In

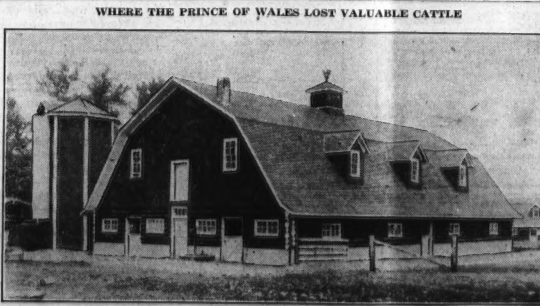

Toronto, Ont.—Close to 80 carloads of fruit and vegetables—66 from Ontario, and 13 from British Columbia—have gone or are going to southern Saskatchewan and other smaller drought-stricken areas of western Canada under the direction of the national emergency relief committee of the United Church of Canada. This was reported by Rev. R. B. Cochrane, chairman.

Chosen As President

Regina, Sask.—Hon. J. D. McGregor, Lieutenant-Governor of Manitoba, was elected president of the newly formed Dominion Agricultural Credit Company, organized for the advancement of livestock activities in the western provinces, at the first meeting of the organization held at the Hotel Saskatchewan.

Japan Accepts Plan

London, Eng.—A Reuters' agency despatch from Tokyo said that Japan has accepted the League of Nations plan for a year's holiday on armaments on condition it does not affect plans already authorized and that neighboring states, especially non-members of the league also agree.

Here is a picture of the barn on the ranch of the Prince of Wales at High River, Alberta, in which several prize cattle were burnt to death in a fire which destroyed the barn. The damage is estimated at \$18,000, and as the valuable beasts were being prepared for show purposes at the Royal Winter Fair, Toronto, all the Royal entries have been cancelled.

Agricultural Extension Work

Quality Production Forcing Attention Over Quantity Effort

For the past few years there has been considerable broad cast upon the agricultural waters in the form of boys' and girls' clubs, and of agricultural extension work in various forms. Now when quality production is receiving attention over the quantity effort which has been foremost in Canada, it is instructive to note what has been the general effect of this educational movement. One municipality, Lloyd George, in Alberta, is making a notable showing in its school fairs, its swine, sheep and calf clubs, and its grain and seed associations. Three of these flourishing organizations are captained by youngsters who won the railway sponsored trip to the Royal Show at Toronto.

This area, also has among its farmers graduates of the agricultural colleges and schools who not only are sticking by the farm themselves but by the force of example are proving a help to the whole community. This municipality this year brought in 35,000 trees for shelter belts and for "strips" as a precaution against soil drifting. It also brought in 5,000 pounds of grass seed for permanent pasture.

Doubtless there are other areas in all the provinces which could point the moral of the harvest from educational work. It is a heartening chapter in the history of agricultural development.—Manitoba Free Press.

Egg-Laying Contest

Awards Made At Close Of Competition Held At Brandon

Competing against 25 pens, the White Leghorns belonging to William Robb, of Grandview, won the year's egg-laying contest, held at the Dominion Experimental Farm, in Brandon. The competition closed October 23rd, and the pen had to its credit, 2,178 eggs, with 2,293 points. The winner was awarded the William Watkins Memorial Cup, donated in honor of the first manager of the competition, who died in the year, 1928.

The second place was won by a pen of Barred Rocks, owned by James Byrne, of Welwyn, Sask., with 2,178 eggs and 2,137 points. Third, Barred Rocks, owned by the Lacey Poultry Farm, Rostown, with 2,171 eggs and 2,078 points.

Fourth, Barred Rocks, owned by W. C. Wroth, Welwyn, Sask., with 2,040 eggs and 2,087 points. The best individual showing was by a bird of Barred Rock variety, owned by S. T. Stewart, Portage la Prairie, which had 284 eggs, with 329 points to its credit.

The average production was 183.2 eggs, weighing 14 ounces per dozen. This ends the twelfth competition conducted at the farm and divided into three periods of four years each. The improved results are shown as follows: First period, 146 eggs; second, 169.8; third, 180.8.

Gandhi Not So Poor

Has Planned Trip Many Would Be Glad To Take

For a man who talks so much about his "frail body" and his "poverty," Mahatma Gandhi seems to get around pretty well. In addition to travelling from India to England for the round table conference, he is in India announcing now that he intends visiting "Ireland, France, Germany, Italy, Palestine, and if possible, United States of America." A good many people not so "frail," or so "poor" would be glad of some of his opportunities.

A survey shows that in the medical profession there are about twice as many general practitioners as specialists.

In spite of precautions, more than 1,000 reindeer were killed last year by the iron-ore train of the electric railway in Swedish Lapland.

The only place for a hit-and-run driver is on a baseball diamond.

"Marie, don't you know that in good houses you bring in letters on a silver?"

"Yes, but I didn't know that you knew it, ma'am."—Kasper, Stockholm.

W. N. O. 1914

Canadian Wins Prize

Quebec Student Awarded Second Prize In International Oration Contest

In a clear strong voice pleasantly turning the periods of his French, Gerard Cournoyer, of St. Joseph de Sorel, Que., told 4,000 people gathered in Constitution Hall, Washington, why, in his view, the French survived in Canada, and told them so well he won second prize in competition with the best boy orators of France, England, Germany, Holland, Ireland and the United States.

Henri R. M. Van Hoof, of Haarlem, Holland, won the first prize with a speech on "The Royal House of the Netherlands."

The French of Canada, M. Cournoyer said had survived as a cultural entity because "of our love for Mother Earth, our richest economic treasure, but, above all," because of "our intellectual and moral qualities."

A short dark, well-built youth with the sparkling eyes and clear-cut features of his race, M. Cournoyer, who will be a student of law, made an excellent impression on the audience. He was completely self-possessed and did as well in the short impromptu address required as in his prepared oration. His subject for the second speech was "The French-Canadians in the Crisis of 1812."

M. Cournoyer is the third French-Canadian to visit Washington in the international competition during the past three years. One of his predecessors won first prize and the other second.

Stalin's Idea Not New

Job Goes To Best Worker Not the Neediest

As if he were issuing information hitherto kept a profound secret Stalin in "The Man of Steel" of the new Russia announces that "even under Socialism wages must be paid according to the work done and not according to the needs of the workers."

That's just it. The world is based on justice. Plato 500 years B.C. discovered that the world was based on justice. Amos preached this doctrine nearly 800 years before the Christian era. "The tools to the hands that can use them," Napoleon taught Europe the plea, "Give the job to the man who needs it" simply will not do. The job must go to the man who can best do it. To do otherwise is to invite disaster. In the end acting on this principle, the best part of charity, business and sentimentalism simply will not mix. If Stalin shows the Russian that his maxim will work he will prove himself the race's benefactor.

First Inventions in Canada

Edison Perfected His First Invention In This Country

The recent death of Thomas A. Edison recalls the fact that he, like Alexander Graham Bell, inventor of the telephone, proved his first invention in Canada. Edison, as a youth, was a telegraph operator in Canada for the Grand Trunk Railway, and it was while so employed at Stratford, Ontario, that he perfected his first invention. It is an interesting coincidence that almost at the same time and only a few miles away at Brantford, Ontario, Alexander Graham Bell was developing his telephone over which the first conversation was held between Brantford and Paris, Ontario, on August 10, 1876.

Reversing the Address Soviet Russia is seeking to educate the people to reverse the form of addressing mail. The new-plan places the name of the addressee last and the city first. They claim it speeds sorting and delivery. Letters now are being sent all over the Soviet Union bearing addresses like this:

"Moscow"
"Mail, Palashchinsky Pereulok 15, Apartment 4."
"Comrade Ivan Mialilov."

The first counterfeit "greenback" in the United States was one imitating the ten-dollar bill of 1862. It was circulated in the same year.

"Your car rattles dreadfully. Does it always do that?"

"Oh, no—only when it is in motion."

More radios have been sold in New Zealand this year than in any corresponding period.

A new craze in Vienna is to dance without music. There are jazz bands in this country, too.

The population of the United Kingdom has increased four per cent. in the past 10 years.

Less than a century ago, in 1860, only three per cent. of the people of the United States lived in cities.

France is adding its wheat growers.

HE BEAT LINDY ACROSS THE SEA

Long before Colonel Charles E. Lindbergh was ever heard of, this man flew over the Atlantic Ocean as the first aviator to accomplish the then unusually hazardous feat. He is Sir Arthur W. Brown, famous British trans-Atlantic flier, and his son, Arthur, Jr., as they arrived at New York. This is the first time Sir Arthur has visited the United States since he and Sir John Alcock negotiated the initial aeroplane crossing of the Atlantic in June, 1919. The Britons took off from Newfoundland at 4.28 p.m. on June 14, and landed at Clifden, Ireland, at 8.40 a.m., June 15.

London's Flower Girls

Oldest One Observed Her Eighty-Ninth Birthday Recently

Nothing is more typical of London, England, than the flower girls. They are all "girls," though some of them have left girlhood. But their gaiety and shrewd Cockney wit precludes their ever being dubbed "women."

Reputed to be the oldest of them all, Mrs. Margaret Blake has celebrated her 89th birthday. Her daughter, Elizabeth, who helps her in her business, was 97 on the same day. Margaret has been selling flowers in the Chelsea and Battersea districts for as long as she can remember, but now she does business only on Sundays. With that day's work and the old-age pension she can live fairly comfortably without facing the strain of any sort of weather every morning of the week. For sixty years, up to her 74th birthday, she attended Covent Garden market daily to buy her flowers. Then she passed the buying to Elizabeth. Elizabeth being by that time over fifty, Margaret felt that she could be trusted and was not likely to make unwise purchases in a spirit of youthful abandon.

Store Cattle Taken To Country Points

Which Indicates a Very Extensive Winter Feeding Program

Increased movement of store cattle off public stockyards to country points in the various provinces indicates a very extensive winter feeding program, the Department of Agriculture at Ottawa, reports. A total of 73,000 head have been shipped to country points to date as compared with 60,000 a year ago, while the movement from the west to the east shows an increase of 100 per cent. and amounts to 20,000 head.

In addition, the movement from the prairie provinces to yards in Ontario and Quebec is three times the volume of a year ago, totalling 37,501 head and shipment of western slaughter cattle direct to packing plants is twice as heavy as a year ago at around 20,000 head.

How Worlds Are Formed

Collision Between Sun and Passing Star Given As Cause Of Birth Of Earth

A terrific collision between the sun and a passing star was advanced as the cause of the birth of the earth and other planets by Professor Willem de Sitter, noted Dutch astronomer.

The passing star, he said, pulled material off the sun, and the larger fragments became the planets. The momentum of the star, transmitted by the collision, started the sun and planets all whirling in the same direction through space.

Such a collision, he continued, is the only satisfactory way of explaining why the sun and all the planets revolve in the same direction, and why their orbits are almost circular and on almost the same plane or level. He spoke before the Washington Academy of Sciences and the Society of Sigma XI.

The satellites of the planets—such as the moon—were born in similar fashion, he said. They were pulled off from the planets by the sun's attraction, as the planets were drawn from the sun.

Why Crop Rotation Pays

Yield Is Increased and Production Cost Is Reduced

The application of a definite scheme of crop rotation is being found an important factor in reducing feed costs. The chief advantages of such a practice are: (1) Maintaining and improving soil fertility, thus increasing yields. (2) Assisting in weed control and crop diseases by having various crops on fresh soil each year; and it makes a more even distribution of labor throughout the year possible. Increasing the yield per acre is one of the best ways of reducing cost of production, and in this respect crop rotation plays a real part.

Brilliant sunsets that last all night may be observed in the Antarctic before the polar night sets in.

Favorable Trade Balance

Exports Exceed Imports For June, July, August and September

For the fourth consecutive month Canada's domestic exports have exceeded imports. In September the monthly balance of trade was in Canada's favor to the extent of \$3,613,286, while for August, July and June the favorable balance fluctuated from \$1,300,000 to \$1,800,000. This monthly balancing of Canada's trade has resulted in reducing this year's unfavorable balance. For the twelve months ended September, 1930, the unfavorable balance stood at \$99,238,904, while for the twelve months ended September last it stood at only \$34,892,428.

Comparing Canada's foreign trade in September with that of the preceding five months of the current fiscal year, a considerable improvement is seen in the export movement of wheat, flour, live cattle, cheese, fish, machinery, pigs and hogs of iron, tubes and pipes of iron, aluminum, copper, gold and lead. Exports of live cattle for the past six months totalled over \$2,166,000, as compared with \$1,738,000 in the corresponding period last year. Exports of fish during this period amounted to over \$12,185,000, as compared with \$10,328,000 last year.

Exports of other commodities are lower than in 1930, with the exception of raw gold which in the past six months totalled \$11,104,000, as compared with \$10,337,000 in the corresponding half year of 1930.

Canadian Fur Trade Safe

Clearly Shown That It Is In No Immediate Danger Of Extinction

Although settlement has rapidly extended on the fur trade of Canada is in no immediate danger of extinction. A century ago the value of the export trade in furs exceeded that of any other product. This has been greatly changed, yet the total output has not declined and Canada may still be described as the last great fur preserve of the world. In 1667 exports of furs to France and the West Indies were valued at 550,000 francs. In 1850, the first year for which trade tables of the Customs Department are available, the value of raw furs exported was \$19,389 (\$83,872); for the twelve months ended June 30, 1920, the value was \$20,417,329; for 1929, \$24,181,208; and for 1930 the value was \$17,187,829. The British market took \$9,453,222 worth in 1929-30 and in Canada's most of the remainder.

Canadian manufacturers of furs have been increasing with the growth of wealth and population. The area which will continue to furnish the historic peltries when settlement has planted its furthest outpost will still have to be reckoned by the hundreds and thousands of square miles.

Geological Surveys

Information Regarding Stores Of Canada's Mineral Wealth Is Obtained

Field work in connection with the geological survey service of Canada is over for the year, all parties having returned to Ottawa to prepare their reports. Additional information regarding the use of the Canadian's untapped mineral wealth will follow from these compilations.

In northeastern Manitoba geological conditions of an area several hundred square miles in extent. In the Oxford Lake district are declared to be favorable for gold prospecting.

Keen search for new sources of this metal is in progress in British Columbia. Dr. G. Hanson and Dr. H. C. Gunning conducted the operations on the Pacific Coast and report increasing production from placers.

Geographical and geological exploration of a large area of sedimentary and volcanic rocks near Rankin Bay, on the west coast of Hudson Bay, engaged the attention of Dr. L. J. Weeks.

From Bad To Worse

"Well," said the old grumbler, "I got a check for 20 per cent. from that bank that closed two years ago."

"You are lucky to get that," said the optimist.

"Not so lucky," frowned the grumbler. "I deposited the check in the bank that failed yesterday."

Mrs. Newbridge—Have you any faith in life insurance?

Mrs. Oldbridge—Yes, indeed. I've realized \$10,000 from two husbands, and they weren't good ones, either.

You can get a pretty good idea of one of the main things the matter with the cotton industry by canvassing the average clothes-line.

The use of soybean goes back to the beginning of China's agricultural age under Emperor Shen Nung.

Big Drop In Grain Production

Prairie Wheat Yield Greatly Below Five Year Average

"Surveying the crops of the Dominion yet can now be said that the wheat yield of the prairie provinces is approximately 157,000,000 bushels below a five-year average, with corresponding reductions in the yields of coarse grains," states the final report of the season of the Bank of Montreal.

In respect to the prairie provinces, the Dominion Bureau of Statistics estimates the wheat yield at 246,000,000 bushels from 23,178,000 acres, which compares with their estimate of 374,500,000 bushels from 23,960,000 acres last year, and a five-year average of 404,000,000 bushels.

This year's oat crop is estimated at 177,700,000 bushels, against 254,011,000 last year, whilst the barley crop at 52,800,000 bushels contrasts with 109,486,000 bushels last year. Land sown to coarse grains, was approximately 13,262,000 acres, or 1,272,000 acres less than in 1930.

The harvested acreage for all crops was much smaller than the seeded acreage, due to abandonments, principally in central and southern Saskatchewan, on account of drought, high winds and other damage.

Canadian Lumber In Demand

Great Increase Shown In Exports From British Columbia

Canadian lumber is now enjoying a greater percentage of lumber imports into Great Britain, Australia, New Zealand and Japan than formerly, a statement issued by the Department of British Columbia Commerce declares. This refers particularly to British Columbia fir.

The Glasgow (Scotland) Corporation housing department is calling for tenders in the near future for material to be used in the construction of about 1,000 new houses, and specifications will require that British Columbia Douglas fir be used for doors and general furnishings. It is further required that timber for flooring, joisting, etc., be sawn in the British Empire.

While off-shore lumber business from the Pacific northwest, has fallen off materially, the proportion exported by British Columbia has increased from 14 per cent. in 1929 to 19 per cent. this year to date.

Outlook In The West

Opinion Of Conditions Given By President of Farmers' Union

Senator W. A. Buchanan, editor of the Lethbridge Herald, thinks the talk about abandoning the "dry belt" in Saskatchewan is not justified. He points out that sections of Kansas and Nebraska were "settled and unsettled" several times before their "dry belt" farmers learned to become successful. So he is confident Saskatchewan will come back,—and quickly.

John W. Dafoe, of the Winnipeg Free Press, says that the fact must be faced that the west must abandon 12,000,000 acres if it is "not put to wheat raising." He thinks Western Canada is powerless against the nationalistic trend of Europe which bonuses the home wheat, but optimistically says a change may come sooner than now seems probable.

Mr. J. H. Woods, of the Calgary Herald, thinks that the day of our recovery is "not in the future but in the present."

Vital Statistics

According to a bulletin issued by the Dominion Bureau of Statistics, births, registered in September in 53 cities of Canada numbered 7,136; deaths 3,700, and marriages 3,207, as compared with 7,179 births, 3,780 deaths, and 3,519 marriages in September last year.

The potato figures on the bill of fare of the American Indian centuries before the rest of the world saw it.

Today's definition: Forest, something to set fire to.

In Mentone, Tex., oil sold for 25 cents a barrel, water 50 cents.

Canadian Engineer Inaugurates Radio System in New Waldorf Hotel

Paul E. Demers of the Radio Laboratory staff of the Northern Electric Company in Montreal, and well known in radio broadcasting circles throughout Canada, was selected to inaugurate the centrally operated radio receiving system specially developed in the Bell Telephone laboratories, for the New Waldorf-Astoria Hotel which was opened in New York this month. Mr. Demers is here seen receiving the first "speaker" for use in his suite.

Church of the Ascension (ANGLICAN)

November 8th.
Sunday School - 10.00 a.m.
Evensong - 7.30 p.m.
Monday, November 9th.
Bible Class - 8.00 p.m.
Wednesday, November 11th.
Armistice Service - 10.45 a.m.
A cordial invitation is extended to all returned men to attend this service which will last about half an hour.

Board of Trade Notes

Do not overlook the date of the meeting of the Board of Trade.
We notice the Chautauqua committee consists mostly of members of our Board which spells success to the Chautauqua.
Wheat has gone up, so do not forget the Grain Drive and leave a little wheat in the elevators to help out the funds.
Get ready any resolution you may wish to bring up at a meeting this winter. If it will help the town and district the Board of Trade is for it.
Join the Board of Trade and help bring back prosperity.

REMEMBRANCE DAY

"In Flanders fields the poppies blow
Between the crosses, row on row"
Every poppy sold on the streets of every city and town in Canada is made by some poor maimed ex-soldier who has no chance to compete in the open labor market by reason of war disability and under the direction of the department of pensions it is the policy of that department to have all the poppy and wreath work done within the province from which the orders are taken.
WEAR A POPPY ON REMEMBRANCE DAY.

HALLOWE'EN

Hallowe'en is once more a thing of the past as far as this year is concerned. One or two parties were held in town. The younger generation got a great kick in dressing up in all kinds of comical costumes, and judging by the sacks of apples some of them were carrying around, well, the apple trade will not be very brisk for some time.
Next day the storekeepers as usual were faced with a window cleaning job—cleaning off the soap. The town was clear of that rougher element that usually comes in at this time, in consequence the front street was not piled up with all kinds of moveable property as in former years. The children had their fun and jokes which is always accepted with good graces at this time.
Constable Jarman and Belshaw did not have a very exciting time keeping things in order. Little or no damage was done and credit is due the children for the way they conducted themselves on this bewitching evening when everyone young and old seem to think it is the night of the whole year set for fun.

Chautauqua Tickets Now On Sale

A well attended meeting of the Chautauqua committee was held in the Atlas Lumber Co. office on Monday evening.
Chautauqua is bringing another wonderful program to Crossfield this year. Get your tickets now and have them reserved.

Weekly Sermonette

"You can't prove the reality of your religion by its racket."

Community Sale November 9th.

Crossfield's first annual community sale will be held on Tuesday, Nov. 10. Anyone having articles to put in this sale are asked to leave their list with Thos. Tredaway as soon as possible.

NEIGHBORS ATTENTION NOVEMBER 12th.

Regular M. W. of A. Meeting Poplar Camp in Madden Hall Honer Gano, Venerable Consul.

THURSDAY, NOV. 5th, 1931

Local and General

W. K. Gibson shipped a carload of hogs to Calgary on Tuesday.
H. M. Seville has recently purchased a Rogers radio.
Keep in mind the turkey shoot on Saturday, Nov. 7th.
George Murdock was a business visitor in Calgary on Tuesday.
Mrs. Wm. Murdock is visiting at the home of her parents near High River.
J. W. Landers left on Tuesday night to spend the winter at Grand Forks, B. C.
Mrs. Currie and Mrs. Cartwright were visitors in Calgary on Monday.
Mrs. H. Ballam entertained at the tea hour on Wednesday afternoon.

Men! Read the U.F.A. Store ad in this issue. It means money for you. Real Bargains as advertised.
A moose was seen on the farm of E. D. High, 6 miles west of town one day last week.
Orval Bills left on Friday last for Cheffhill, west of Edmonton, to visit friends and do a little moose hunting on the side.
Mrs. (Dr.) Bishop of Calgary came up to attend the social evening and dance on Friday last.
G. K. Allonby disposed of three head of Shorthorns at the Calgary sale on Wednesday; bringing \$100, \$65 and \$55.

Now is the time to order your Christmas cards for Old Country mailing. We have a wonderful assortment at the Chronicle office.
The many friends of Mrs. Ed. Fox will regret to know that she has been indisposed for the past week.

Many of the curlers in the neighboring towns have already organized for the season. What about a meeting in Crossfield?
Culver Calhoun, Sam Collins and Fred Collins left on Saturday morning for the west country in quest of big game.

The road travelling crew is now making Crossfield its headquarters. We understand 400 cars of gravel will be unloaded here.

Everybody is going to the dance in East Community on Friday night. Valuable prizes are offered in connection with these popular dances. Dont miss it.

Mr. and Mrs. R. M. McCool and Mr. and Mrs. W. H. Miller went down to Beddington on Monday evening to hear Robt. Gardiner, M. P.

Mr. and Mrs. Everett Bills has moved into the Jessiman house on Osler Street. taking up temporary residence there whilst an addition is being added to their farm home.

The Ladies Aid of the United Church met at the home of Mrs. Whillans on Wednesday afternoon. After a very successful meeting the hostess assisted by Mrs. E. T. Amery served a dainty lunch.

Vinton Friak son of Mr. and Mrs. A. L. Friak met with a painful accident on Monday afternoon when riding home from school, his pony turned a corner and Vinton didn't—at least not on board—falling heavily to the ground injuring his side and getting a bad shaking up.

Mr. and Mrs. Wilson Stafford, Mrs. C. C. Stafford and Mrs. Anderson motored to Mossleigh on Sunday, returning the same day. Wilson had plenty of grief before he got home. First he ran out of gas and then borrowed some distillate from the nearest farmer, the distillate put his car on the bum proper before he had gone very far, however he eventually got home.

School Notes

The school board will hold their regular monthly meeting in the office of W. K. Gibson on Monday evening Nov. 9th.

The addition to the school barn has been completed and there is now good stabling for 21 horses. This satisfies a long felt want as in previous years pupils have been compelled to rent a barn for their ponies during the winter months.

Charlie Smart has been given the job of erecting the school flag pole and Charlie hopes to have it pointing skyward this week-end.

The school principal lost his car during the pranks of the spooks on Saturday evening last, but was able to locate it on Monday two miles north of town.

Additional Local News

Miss Francis McFadyen of Rosebud is visiting here.

Dress Making—Evening Dresses, and Suits Made-to-Order, Alterations, etc.—Mrs. M. English.
Mrs. Tweedale who has been ill for the past two weeks left for Calgary on Saturday where she will stay with Mrs. Alex Fraser.

A few friends gathered at the home of Mr. and Mrs. W. Brandon on Sunday in honor of their son Eddie who recently returned from Carlsbad.

Next, Wednesday is a statutory holiday—November 11, Remembrance Day.

Joe Orum who resides on the Everett Bills farm east of town was painfully injured on Wednesday when he was kicked by a horse. Mr. Orum slipped as he went to go up in the stall and fell at the horses heels, who immediately let go with both feet hitting Joe on the chest and leg and as a result he will be laid up for some time.

The Crossfield Baseball Club will hold a turkey shoot on Sat., November 7th, commencing at one p. m. Trap and target shooting.

Successful Turkey Shoot at Dog Pound

The turkey shoot at Dog Pound on Thursday was well attended and a good number of turkeys disposed of. Frank Brown was the best shot of the day and got five turkeys. Bill Gray certainly done a lot of shooting although he only got one turkey.

Adam Cruickshank, well known Crossfield sportsman came out for the shoot and although Adam is a great hunter he is a poor shot. Lake Parsons had charge of the shoot and everything went off very nicely. The baseball club made a few dollars and the large crowd had lots of fun.

ANNUAL BAZAAR

The Women's Guild of the Church of Ascension are holding a bazaar, afternoon tea and sale of home cooking on Saturday 21st of Nov. They have a wonderful lot of fancy work suitable for Xmas gifts and would be worth your while to come and see the things before purchasing elsewhere. Music will be furnished.

EAST COMMUNITY D-A-N-C-E-S

The committee in charge of the East Community Hall will put on a series of three dances on the following dates:
Friday, November 6.
Friday, November 20.

Friday, December 4.
Those who attended the dance on Friday last will be paid \$1.00 a couple in "East Community Money" for every couple they get out to the dance on Nov. 6, as so on, at the end of the third dance all those holding this money will take part in the draw for several valuable prizes. Everyone has an equal chance. Attend the next dance and help John Brown get a dollar and then get busy and work for yourself. The more dollars you make the more chances you have of winning these valuable prizes.

Music by The Ferguson Melody Boys.
